

School Frequently Asked Questions

What kinds of inspections are done at the school?

The school cafeteria is inspected separately from the school building. The cafeteria kitchen is inspected 4 times per year and held to the same standard as a restaurant; the grade is posted. School buildings are inspected once a year, independent from their cafeterias. We currently do not post the grade of the inspection.

How many times per year is a school building inspected?

A school building is inspected one time per year minimum.

What types of schools are inspected?

Public, private and religious schools are all inspected by the Health Department.
